SHREEJI further expands its logistics business by setting up a new vertical of Car Carrier Transportation

Navi Mumbai, 15th March, 2022: Shreeji Translogistics Limited, which has grown to become one of the largest integrated national logistical solution providers in India, has recently opened a up a new vertical of Car Carrier Transportation.

CEO of Shreeji Translogistics Limited, Mr. Harshal Shah says that *“Like most other industries, transportation and logistics (T&L) industry is currently confronting immense change; and with change comes, both risks and opportunities of new technology, new market entrants, new customer expectations, and new business models. Hence, to adapt to such changes, SHREEJI has set up a new vertical of Car Carrier Transportation under a Strategic Partnership to continue diversification and expansion and to advance in various sectors of logistics. Here, we transport the finished automobiles i.e., Car from Original Equipment Manufacturers (OEMs) to Dealers providing Last Mile Delivery on specific Car-Carrying Trailers. Our emphasis has always been on timely pick up and safe delivery of goods. We have right now started Car Carrier Transportation in South India and planning to grow further across other regions of India. I would like to simply conclude by saying that when we look into the future, we see disruptions, we see collisions, we see transformation, but most of all we see opportunities and same is with SHREEJI, we are seeing more prospects and opportunities going forward and are gradually growing day by day.”*

ABOUT SHREEJI

Shreeji started as “Shreeji Transport Corporation” (STC) with sole focus on parcel services in 1984. As safety of consignment became the priority, in early 90’s, the Company shifted to full-bodied trucks. Then, a new vertical was added by name of “Bangalore Roadways” with focus on truck brokerage business. There came a turning point when Shreeji was converted as “Shreeji Transport Services Private Limited” in 1994. And, in the meantime, the Company’s Full Truck Load (FTL) business was increasing in Southern India. Over the years, the Company started using containerized trucks for both FTL & parcel business. The Company also introduced Global Positioning System (GPS) on its trucks for real-time tracking of vehicle movement. In 2002, the Company started and pioneered in Bonded Trucking business, which was a path-breaking move for the Company. Shreeji has been a pioneer in Custom Bonded Trucking since a decade and has also received an Award as Best Custom Bonded Trucking Operator in the Year 2019 by India Cargo Awards. In 2017, the Company got listed and now is in BSE Main Board.

Today, Shreeji owns and operates a strong fleet of commercial vehicles consisting of 290 owned trucks and more than 400 outsourced trucks; having its head office at Mumbai and branches
